Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 3-6, drawn to a magnetorheological fluid, classified in class 252, subclass 62.52.
- II. Claims 7-11, drawn to a mechanical devices, classified in 192/53.1+ , 188/267.2+, or 267/113+.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the devices of claims 7-9 do not require the fluid of claim 3 and the devices of claims 10-11 do not require the fluids of claims 3 and 6. The subcombination has separate utility such as in electrical devices.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with B. Hamburg on 1/20/04 a provisional election was made without traverse to prosecute the invention of Group I, claims 3-6. Claims 7-11 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Art Unit: 1755

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hamburg on 1/23/04.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 7-11 to an invention non-elected without traverse. Accordingly, claims 7-11 have been cancelled.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melissa Koslow whose telephone number is (571) 272-1371. The examiner can normally be reached on Monday-Friday from 8:00 AM to 3:30 PM.
